### Closing Reception with Dean Peter Rodriguez
On behalf of the entire Planning Committee, we welcome you to the Jones Graduate School of Business at Rice University, whose mission is to develop principled, innovative thought leaders in global communities. For the past 22 years, this student-led conference has become a cornerstone of the community and has created a unique forum to educate, empower and exchange ideas that help shape the workforce of tomorrow.

As we return to the traditions and legacy of the Women in Leadership Conference, we remain cognizant of the resiliency this community has shown in the last year. It is through that strength that we find ourselves hopeful and inspired to set the theme of this year’s conference as Empow(her): how to succeed while lifting others up. Serena Williams once said, “The success of every woman should be the inspiration to another. We should raise each other up. Make sure you’re courageous: be strong, be extremely kind, and above all, be humble.” These words guided us in planning this event and partnering with a diverse set of speakers who shine as role models and thought leaders across various industries. We hope that you will leave today inspired by and connected to some of the most brilliant professionals in greater Houston and beyond.

It is with special thanks that we spotlight our generous sponsors, who have supported our mission, and several women-owned businesses in the greater Houston area that are making an impact in their communities. Without them, this conference would not be possible. We also wish to extend our heartfelt gratitude to the staff, students and faculty of Rice Business, whose unwavering passion for this event each year remains unmatched and invaluable.

Thank you for joining us! You are the foundation of the conference, and we hope that you not only learn from those on stage but also from those sitting next to you. Connect with attendees, build your network, and leave energized and ready to apply what you have learned to your everyday life. We encourage you to join in the conversation to be the change for generations to come.

Sincerely,

2022 Women in Leadership Conference Committee
