

REDUCING GREENHOUSE GAS EMISSIONS

Potential Investment Opportunities that Optimize Returns, Actionability and GHG Emissions Reduction

AGENDA

7:00 – 8:30 am	Registration & Breakfast	11:30 am – 1:00 pm	Lunch
8:30 – 8:50 am	Student & Judges	1:00 – 1:45 pm	Windmillionaires
9:00 – 9:05 am	Orientation	1:45 – 2:00 pm	Break
9:05 – 9:30 am	Welcome Remarks	2:00 – 2:45 pm	Carbon Reducers
9:30 – 9:45 am	Morning Keynote	2:45 – 3:00 pm	Break
9:45 – 10:30 am	Break	3:00 – 3:45 pm	The Decarbonators
10:30 – 10:45 am	Team Deuterium	3:45 – 4:00 pm	Break
10:45 – 11:30 am	Break	4:00 – 4:15 pm	Closing Remarks

KEYNOTE SPEAKER

LUIS ALCOSER

General Manager
of Future Energy

Chevron Technology Ventures

Luis Alcoser is GM of Future Energy for Chevron Technology Ventures, where he leads Future Energy Fund investment activities in the areas of hydrogen, CCUS, mobility, energy storage, distributed power, grid optimization, energy efficiency, energy avoidance, carbon markets/offsets and circular economy. During the course of his nine years working in venture capital, Luis has led origination, evaluation, piloting/qualification, scale-up and spin-out, and venture capital investment in upstream, midstream, downstream, retail, carbon management, advanced materials, power generation, energy storage, advanced nuclear/fusion, remote power, mobility/transport, smart cities, renewable energy, machine learning, artificial intelligence, visualization, network communication, robotics, IIOT/sensors, automation, IT infrastructure and advanced/cognitive computing. He has established a vast global innovation and co-investor network, which he successfully has leveraged to identify, invest in and deploy disruptive technologies, which have directly translated to \$100's of millions per year of strategic value for his company, as well as provide an above-market multiple return on capital deployed.

Prior to joining Chevron, Luis held various upstream engineering, operations, business development and venture capital leadership roles with BP, Shell, Noble Energy and Schlumberger, where he led upstream projects in conventional and unconventional plays across the continental U.S., deepwater Gulf of Mexico, Israel, Russia, Malaysia, Equatorial Guinea and Angola.

Luis holds a B.S. in natural gas engineering and an M.E. in petroleum engineering from Texas A&M University, an MBA and Master of Finance from Tulane University as well as a J.D. from the University of Houston.
