EXECUTIVE EDUCATION

GRADUATE FINANCE AND ACCOUNTING

Take your seat at the leadership table

The Finance and Accounting program provides the foundation for understanding the individual elements that comprise financial statements, key performance indicators, financial reporting, and how financial data and reporting impacts management decisions and strategy. Designed for non-financial managers or those seeking to refresh their skills, this course is a 4-day intensive program equipping you to speak intelligently in the language of finance and accounting so you can confidently and competently take your seat at the leadership table.

WHO SHOULD ATTEND?

Non-financial managers at all levels

HIGHLIGHTS

- Learn the critical concepts, terms and components of finance and accounting
- Understand each of the three major financial statements and the interrelatedness of these statements
- Develop ability to identify what metric companies are being measured on and its meaning
- Learn how to assess the financial standing of your business unit or organization
- Learn various financial strategies related to specific business models and how to benchmark performance
- Develop ability to determine cost of capital and equity
- Understand evaluation of capital investment options and capital investment decisions
